PROFESSIONAL EXPERIENCE

iOS Tech Lead

UOB, Singapore (via HCLTech & Optimum Solutions)

2023-Present

Singapore

- Lead the engineering of UOB TMRW modular iOS app; boosted scalability 30% across 4 markets (SG,TH,ID,MY) for large user base.
- In Agile/Scrum, collaborated cross-functionally (product, design, backend) to launch features; improved UX & cut dev time 20%.
- Architected a scalable solution using VIP and modular design (Cocoapods), cutting feature update time 25% achieved 40% code reuse.
- Optimized Jenkins CI/CD, cutting build time 50%; streamlined dev (Bitbucket, JIRA, SonarQube) for improved code quality.

Senior Software Engineer

Recro (Client: Ekincare, Hyderabad)

2022

Bengaluru, India

- Led iOS dev for Ekincare (2M+ users); architected/delivered features, mentored 3 engineers.
- Cut build times 50% via parallelization modular design; boosted scalability & dev efficiency.
- Integrated HealthKit, Maps, MoEngage; increased user activity 15%.
- Achieved 100% test coverage (Unit, Integration, E2E, Snapshot); reduced bugs & improved code quality for smoother releases.

Senior Software Engineer

Smart Controls India Ltd. (Zeppelin Group, Germany)

2019-2021

Bengaluru, India

- Built Klickcheck iOS/React apps with remote cross-functional team; improved equipment docs efficiency 25%.
- Developed MVVM iOS app reducing equipment handover 30% (QR scan, offline Realm).

Software Engineer

Fingent

2016-2019

Cochin, India

- Self-taught iOS Dev: developed ReachOutSuite (1000+ users), managed full lifecycle.
- Delivered iPad app in 1 month via reusable framework; cut future dev time 40%.
- Boosted client engagement 30% with CoreData offline & Google Maps for remote usability.

TECHNICAL SKILLS

Core iOS: Swift, SwiftUI (learning), Combine (Familiar), UIKit, XCTest, XCUITest (Familiar), Core Data, Realm

Architecture: Modular Design, Clean Architecture, VIP, MVVM (w/ Coordinators), MVP, TDD, OOP, RxSwift (Familiar)

Methodologies & Tools: Agile/Scrum, CI/CD (Jenkins, Bitrise, Fastlane), Xcode, Git, JIRA, SonarQube

Key Skills: REST APIs, DSA, React, HealthKit, Google Maps, MoEngage

PROJECTS

Continuous Learning Journey

TDD, Clean Architecture, SwiftUI, DSA

- A public repo demonstrating a passion for 'learning and sharing' by mastering TDD, Clean Architecture, System Design, and DSA.

EssentialFeed · iPhone (Modular design)

Swift, TDD, MVC, MVP, MVVM

- Mastered modular design, TDD, and advanced iOS architectures (MVC/MVP/MVVM) via Essential Developer program for 'robust, scalable and testable code'

UOB TMRW SG/TH/ID/MY · iPhone

Swift, VIP

- Developed UOB TMRW app for 4 countries, enhancing banking security and user experience for millions.

Diverse GitHub Portfolio (github.com/areekaras)

20+ projects demonstrating TDD, BDD, DDD, Design Patterns, various iOS Architectures (VIPER, MVVM-C), and Data Structure and Algorithms.

EDUCATION

iOS Lead Essentials (Dec 2021–Present)

Essential Developer Academy by Caio & Mike

Training program to become complete senior iOS developer

B.Tech Computer Science & Engineering (2012–2016)

University of Calicut
